

Advisory on Fraudulent Visa & Migration Processing Agencies

The Embassy of India, Abu Dhabi and Consulate General of India, Dubai & Northern Emirates have been receiving complaints from Indian nationals against certain visa/migration processing agencies operating outside India including UAE that promote third-country employment/resident visa services through social media advertisements, collect fees from applicants, and then fail to deliver services or refunds.

2. Indian nationals are advised to exercise utmost caution and note the following:
 - Do not rely solely on social media advertisements or blindly believe private visa processing agencies especially those operating from outside India;
 - Verify directly with the concerned Embassy / Consulate of the country you wish to visit, located in your country of residence, regarding visa requirements, application procedures, and authorized channels for obtaining employment/residency visas;
 - Never pay any amount based on promises of visa approval; no agencies can guarantee a visa, as this is solely the decision of the issuing government.
3. For accurate and updated visa information, applicants should always consult Government/Embassy websites of the concerned country directly, rather than third-party.
